Rachel Crozier

Miss Crozier,
I o my favorite
English teacher. Sure
enjoyed your presence
at the dance we had.
I think I can distinguish
between a period from a
task. now.
Brodie Atwater

Dear Miss Crozier,
you had a time with
two Davis's. I've certainly
enjoyed having you for my
instructor as well as my
counselor. I appreciate
Davis

I have enjoyed every minute
of your wonderful classes.
I will always remember
your kindness toward me
C. H. Atwater

Plan this again
I know I shall
never forget through my
struggle through and
freedom you gave me.
You are a wonderful
teacher and an inspiration
to you
Jeannette Pittard
"Chile"

Hail to thee, our Alma Mater,

Your name we hold high with pride.

Though we may wander far asunder,

Still you are by our side.

Fond memories of friends

still linger on.

You'll ever be our inspiration

Long after we are gone.

All our hearts are filled with gladness

When we think of thee.

Hail, Palm Beach Junior College,

You shall immortal be.

Golden bars of memory swing wide once more
To college friendships and golden hours we shared together.
Memories began in a new setting,
Where our paths crossed every hour;
Memories woven from the happenings of every day,
Creating something that had never been before--
Something that can never be again--
Except in the laughter and learning
And time returning
On these pages.

PALM BEACH JUNIOR COL

Dedication

"Now youngsters. . ." With these familiar words, spoken enthusiastically as she introduces each point of importance, Miss MARY SUSAN ALBERTSON has guided thousands of students through her various science courses. Into the teaching of these courses, as into anything she undertakes, she has put her entire soul.

From its founding in 1933, Miss Albertson has been a vital part of Palm Beach Junior College; in fact, the story of her classes is the story of the college. From the temporary location on Gardenia Street, she moved with the college to Morrison Field and there greatly expanded the science program. In Miss Albertson's classrooms and laboratories general biology, comparative anatomy, subtropical flora, genetics and organic evolution as well as pre-clinical nurse's biology, first made their appearance in our curricula. And now, in our new location, she has accomplished the miraculous task of transferring her courses and laboratories intact into the limited space available. The consistently high standards of her classes throughout these years have done much to keep Palm Beach Junior College an accredited school, and have won for her our deepest respect. The characteristic humor with which she so skillfully high-lights her words of wisdom has won the admiration and affection of everyone who knows her.

To you, Miss Albertson, we dedicate this, the 1952 GALLEON; and we hope that as the years go by many other students will be able to benefit, as we have, from many pleasant and stimulating associations with you.

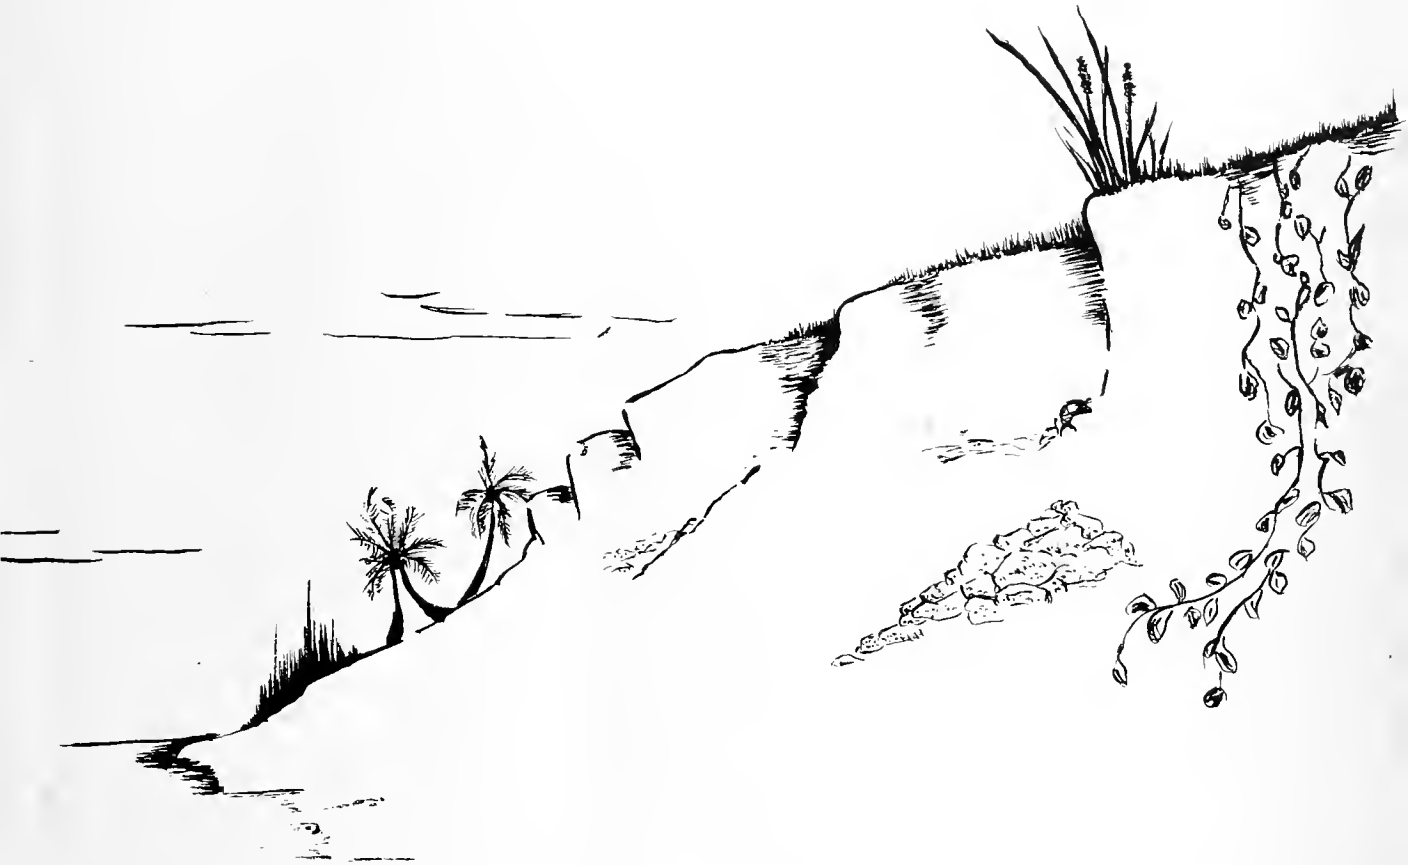

Appreciation

To Dr. John I. Leonard, our President, we express our sincere appreciation. In him we have found the rare combination of an efficient, forceful executive . . . and a genial, warm-hearted friend. Through his guidance, words of counsel, and zestful humor, he has enriched the lives of those around him. With deepest respect we thank him for his untiring interest.

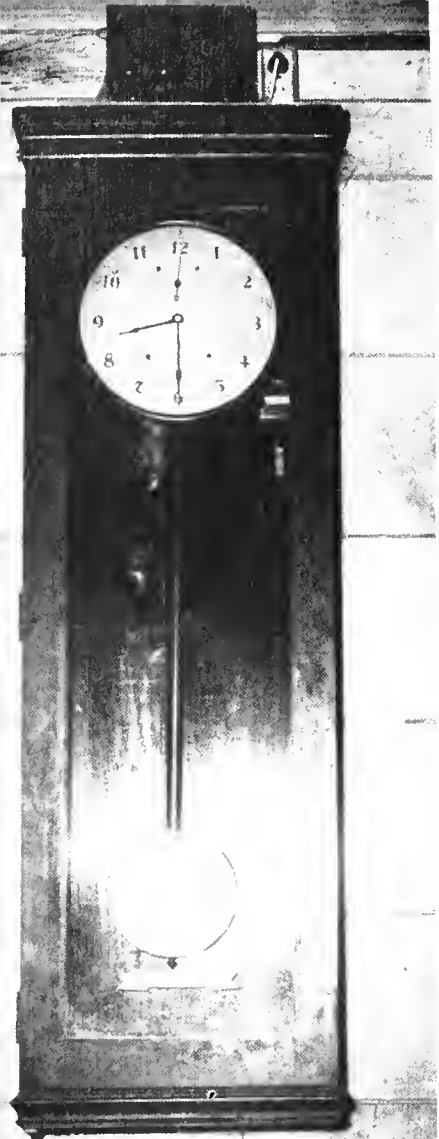

Introduction

Palm Beach Junior College experienced many changes in 1951 . . . changes which modified everything but her spirit.

A new location in Lake Park . . . limited space . . . a smaller faculty . . . fewer students--these are the changes.

Throbbing activities . . . a sense of individual importance . . . stimulating associations and friendships--these are the constants; and though intangible, they are significant. These are the spirit of Junior College . . . a spirit that you have sensed and will long remember -a spirit present every hour of the day at Junior College.

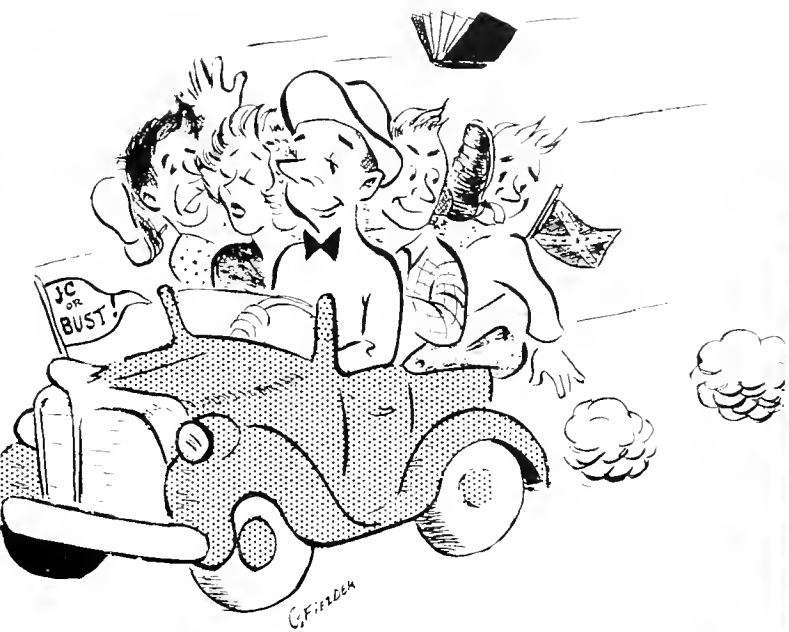

8:30 . . . a day begins at Junior College.

A building becomes a school as students hasten in from cars and buses. A flag takes its place in the clear morning air.

8:30 . . . a new day of warmth, comradeship and learning.

In the cool of the morning - a quick cup of coffee starts us off to classes.

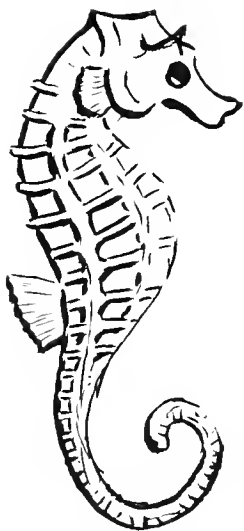

Informality of instruction and enthusiasm of students combine to make classes interesting and effective.

Bits of conversation up and down the stairs are relaxing between periods of concentration.

Other classes develop practical skills and prepare the student to meet the constant demands of everyday living.

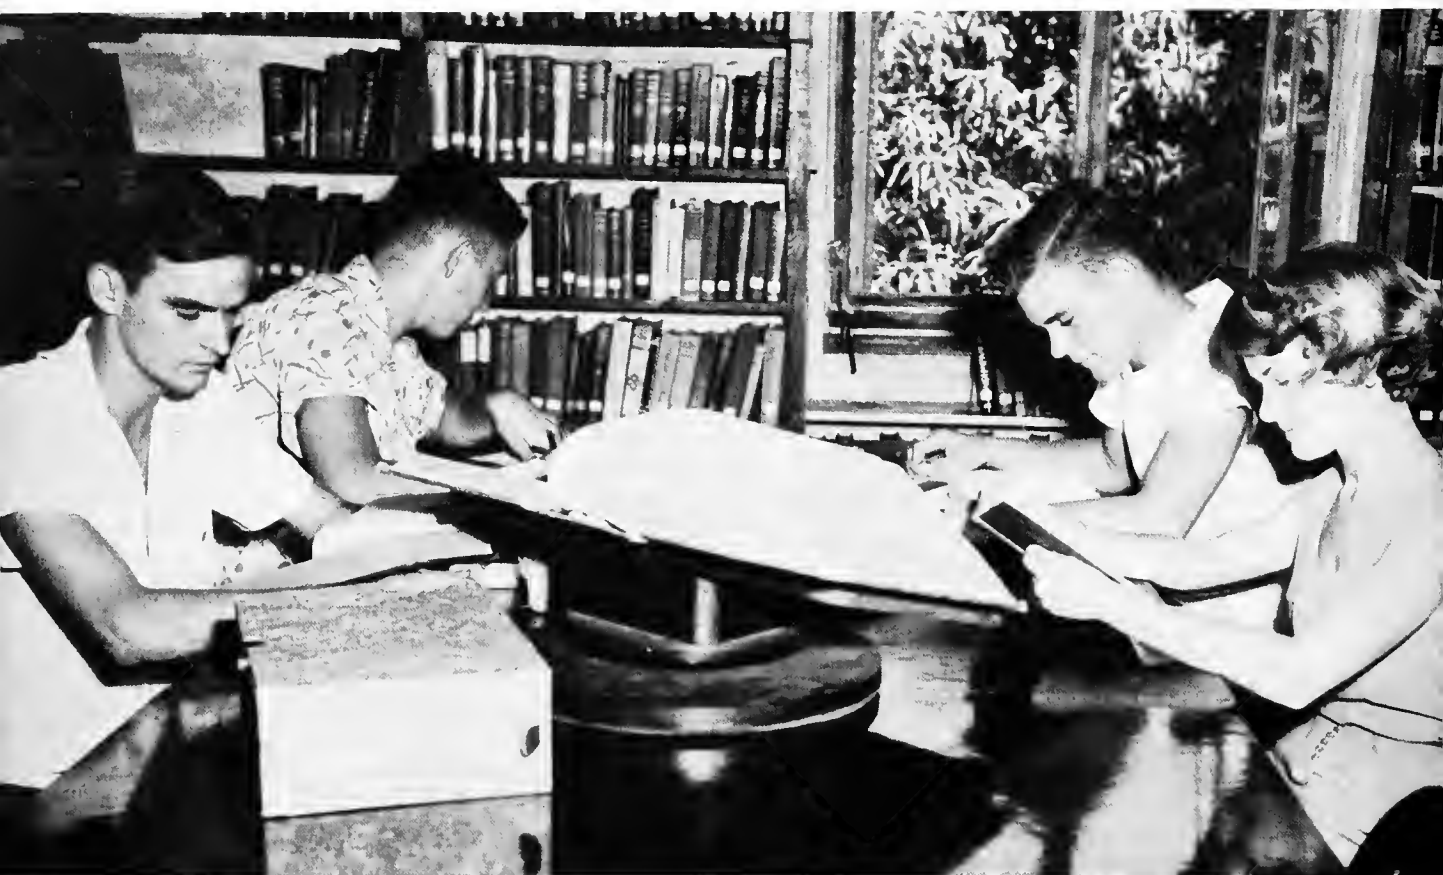

Between classes fun at the fountain
dampens everything but our spirits.

Laughter and stitches . . .

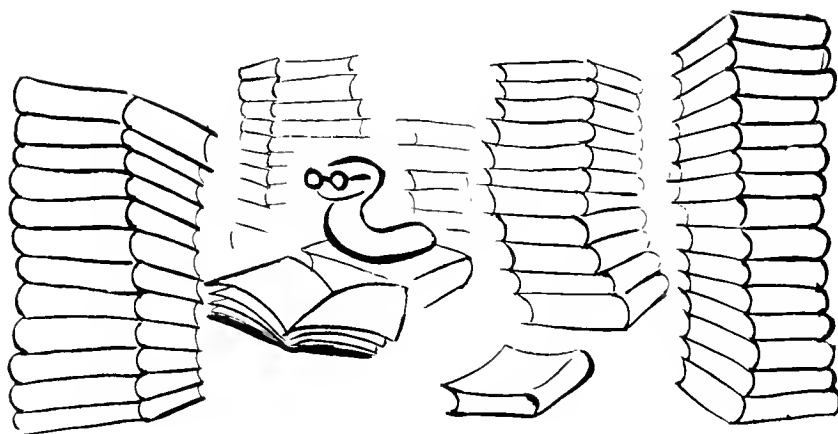

Wisdom mixed with wit . . .

During free hours . . .

Some make the most of their time . . .

... while others just make time.

A round of cards in the lounge
helps to bridge the time
between classes.

S.L.V.

Classes, such as art give us an opportunity
for self-expression and development of our
individual talents.

On special occasions we enjoy
an assembly.

An exchange of opinion with
Dr. Leonard is always helpful.

12:30

Everyone
converges on
the snack bar.

After
the rush . . .
Moments
of leisure

Fun and enthusiasm . . .
Keynotes of our Phys. Ed. Classes

. . . what we affectionately know
as Sandspur Field.

We rub
elbows
in lectures
and labs.

Near the end of the day there's a welcome moment to browse in the library or chat in the lounge before we run to catch our rides.

3:00 o'clock

Classes end but the spirit of Junior College continues

follows us through the hours of the evening and week end.

Saturday . . . the speed and splash of water sports.

. . . And the tense moment of silence before a carefully prepared script becomes PALM BEACH JUNIOR COLLEGE ON PARADE.

Sports

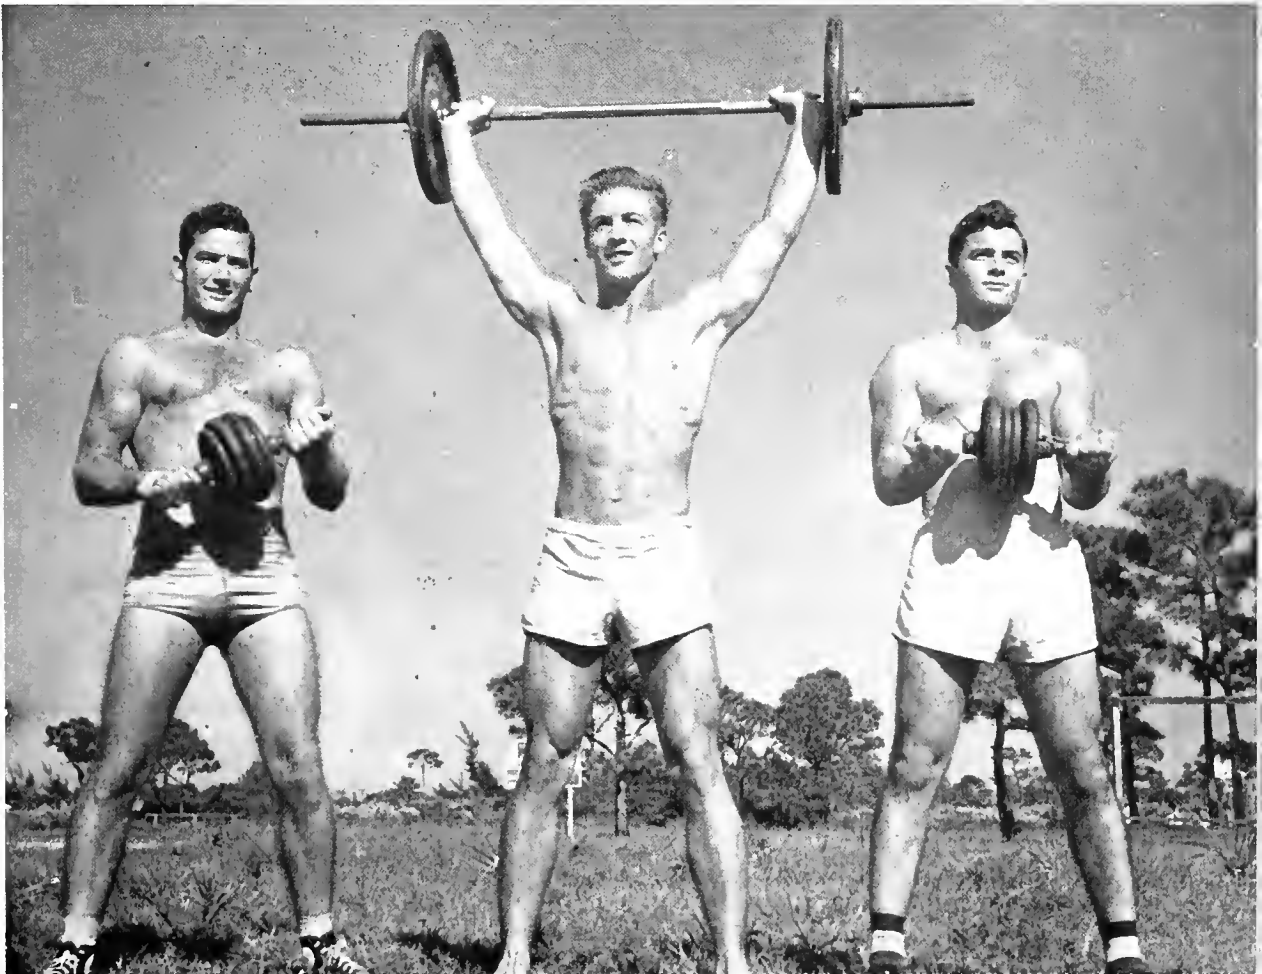

Coach

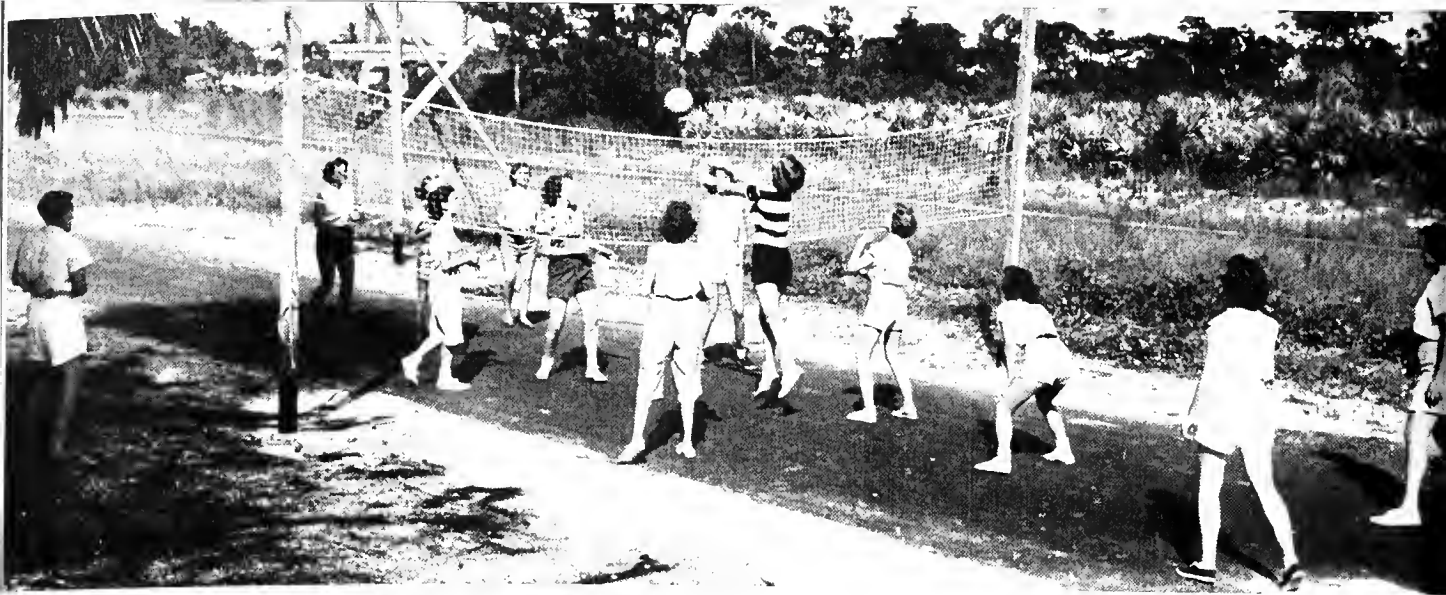

A champion
in our midst.

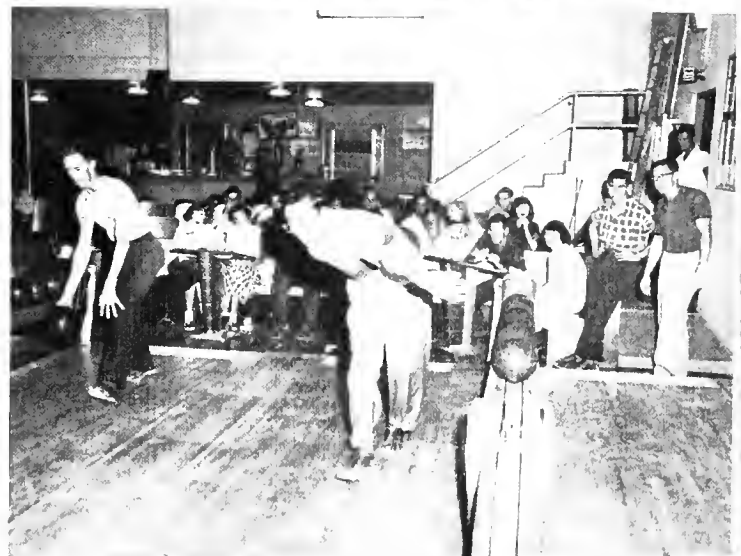

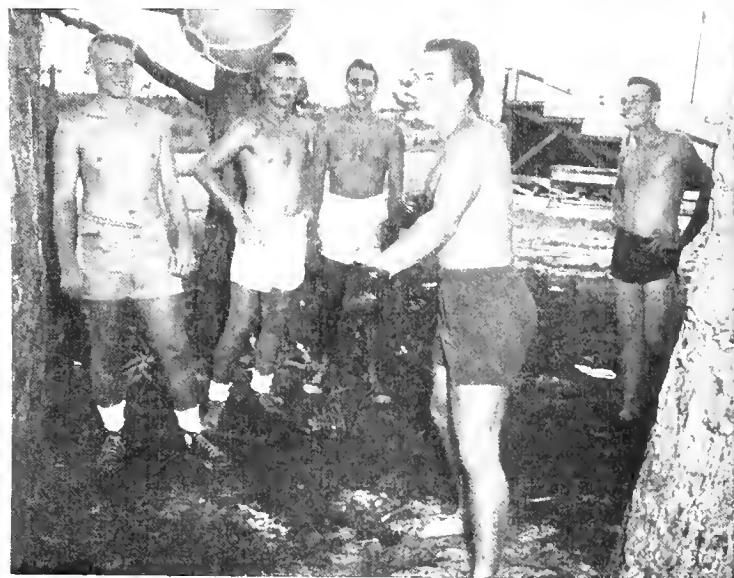

From horseshoes to water-skiing, sports for all is the theme of our activities. Cares (and even sand-spurs) are forgotten as we become champions, and would-be-champions. The tropical sun and blue skies add to our enthusiasm and getting that extra point or slamming the ball down the fairway adds to the thrill. And of course in the evening, bowling and skating bring home the feeling of eagerness and friendliness.

Sports for all -- Fun for all.

Sports to take the load off our shoulders.

There's
Nothing
Like...

High ambitions...

A good drive...

or legging it around the field.

When you see some one beating your tires, rims, and wheels—haven't you often felt like yelling at him and telling him to stop?

You won't catch any one here doing that.

we use the

The World's Finest . . .

TO PROTECT YOUR TIRES, RIMS, AND WHEELS
TO SAFEGUARD you and your family, why not
bring your car in for a wash, or lubrication,
and let us check your tires for you.

Dear Miss Crozier
I hope I have been
fortunate in not losing
you. It is a great
enjoyment to have you
and I shall never forget it.

To a very
wonderful person -
Miss Crozier

Dear Miss Crozier.

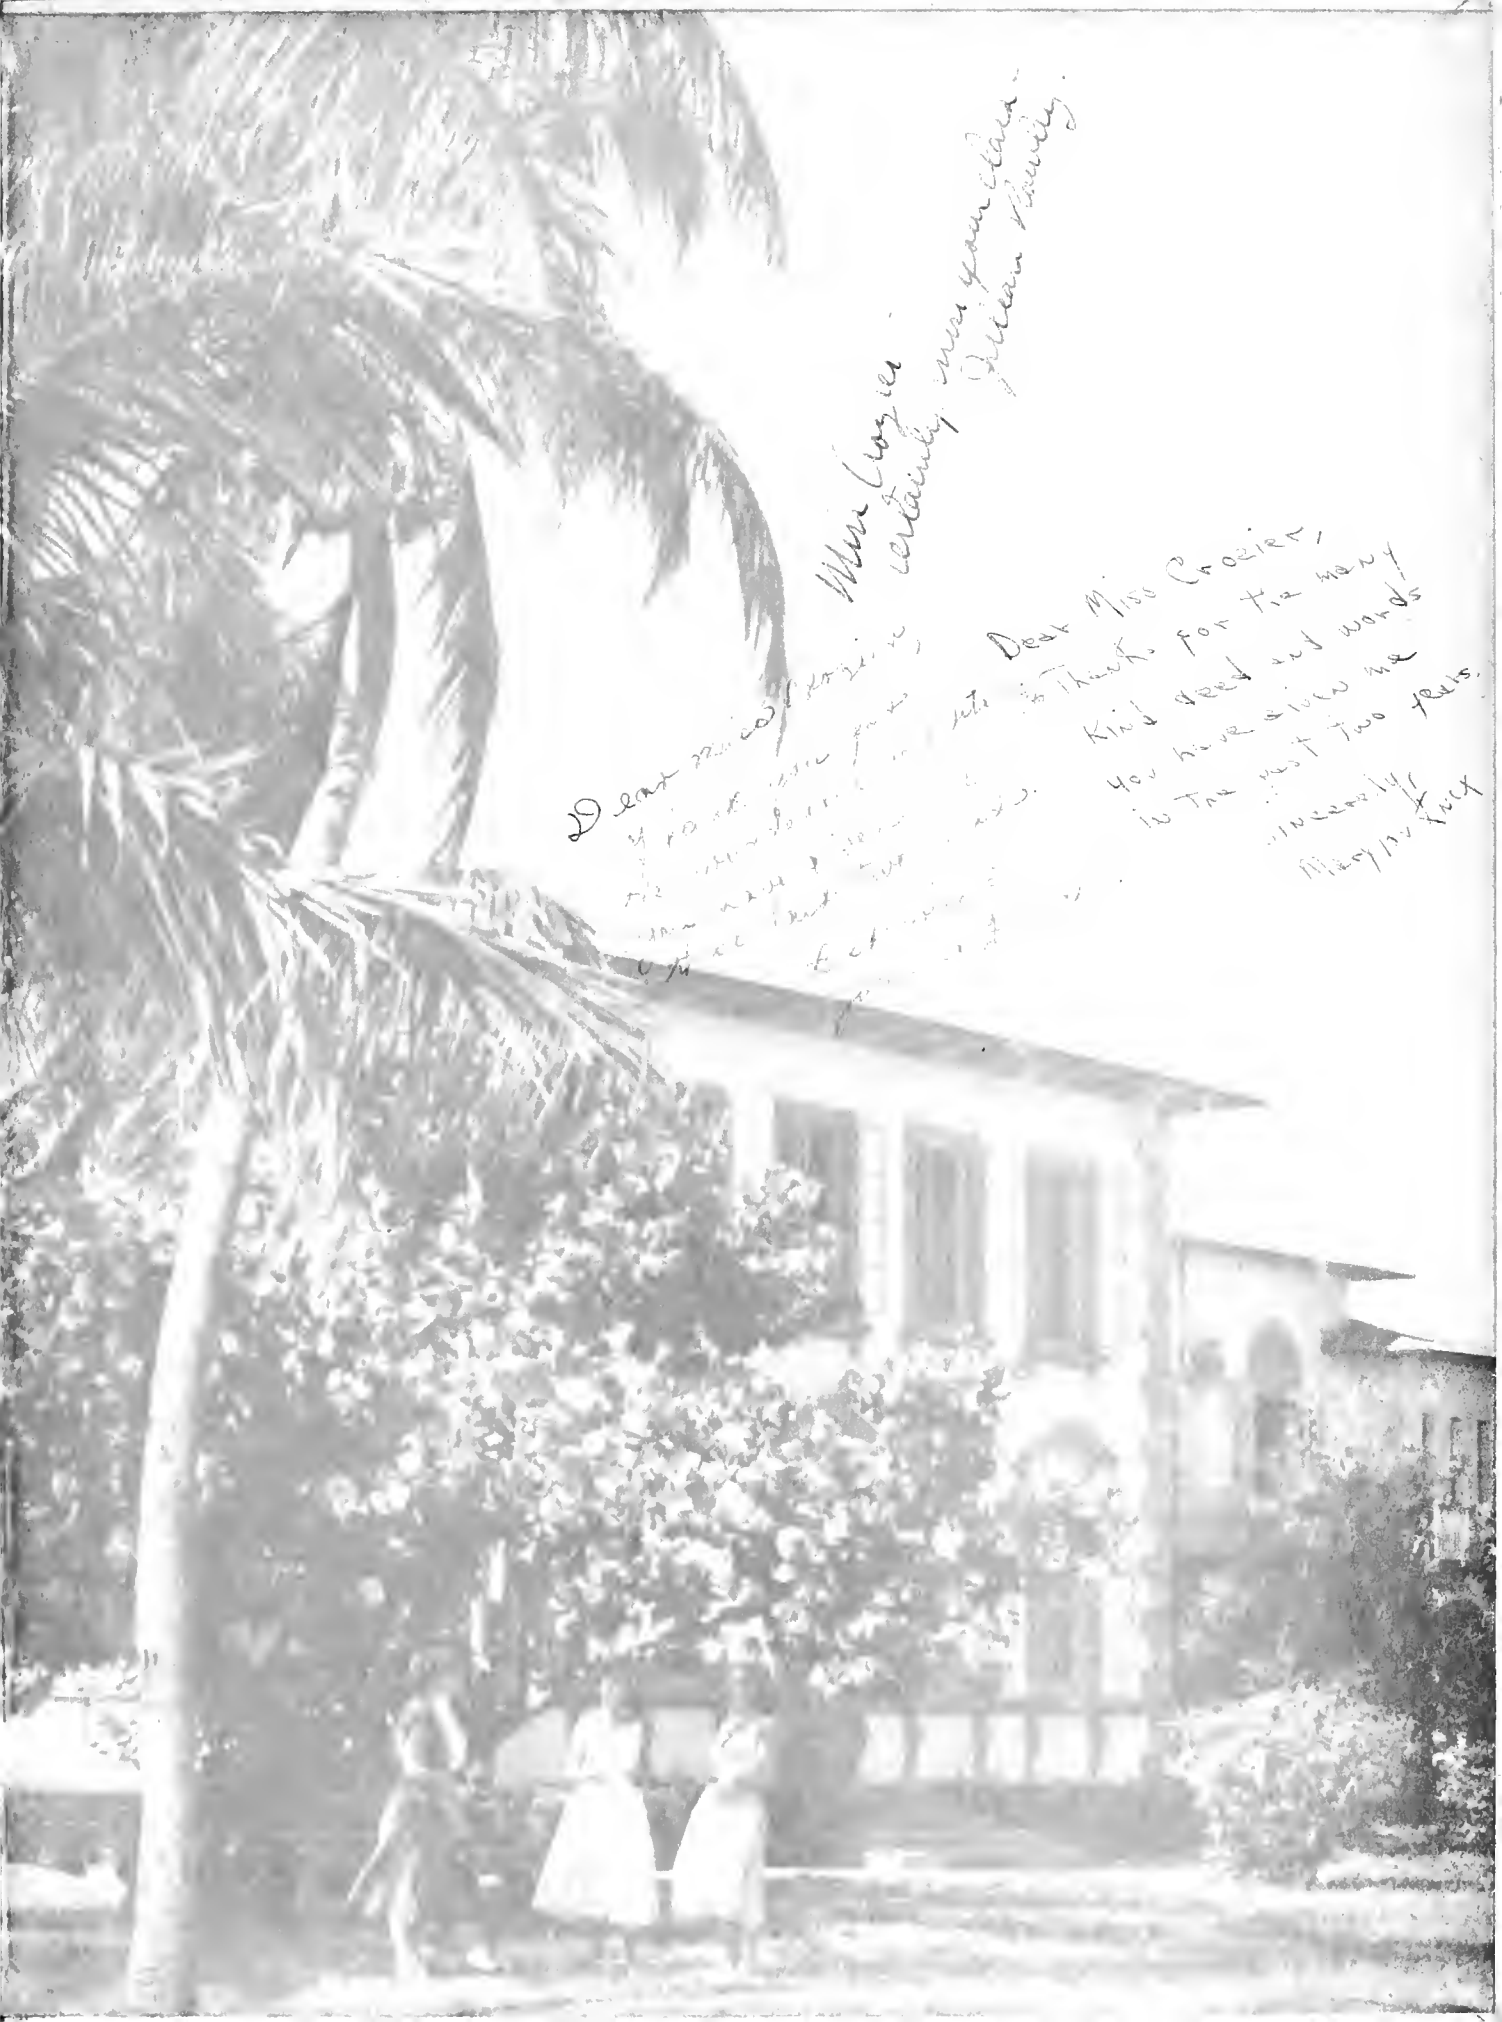

In my memory
you will always be.
I can not express my
gratitude in words, but
as always I'll re-
mem you. C. van Darp

DEAR MISS CROZIER:
EVERYBODY SAYS THAT YOU ARE
A SWEET & NICE PERSON, SO MANY
CAN NOT BE WRONG, AND I AGREE
WITH THEM.
Yours truly,

Dear Miss Crozier,
Mrs Crozier certainly miss your class -
Julian Hardy.

Dear Miss Crozier,
I hope you are
the same as ever.
I have not two
of the same.

Dear Miss Crozier,
I thank you for the many
kind deed and words
you have given me
in the past two years.
Sincerely,
Mary Ann Fox
